

The RDD MethodSM

The RDD MethodSM

FREE YOURSELF FROM OPIATE ADDICTION WITH THE RDD METHODSM

Our innovative RDD MethodSM of anesthesia assisted opiate detox can eliminate approximately 90% of the pain and suffering associated with opiate withdrawal.

As opposed to many physicians and rehabilitation centers, we do not use other addicting opiates such as Suboxone, Subtex, Buprenorphine, or any mixture of opiate "cocktails" such as liquid Hydrocodone or Dilaudid to accomplish detoxification.

These schedule II and III controlled opiate drugs only trade one addiction for another, masking withdrawal and causing severe, painful symptoms 2 – 3 days after the drugs are stopped after the patient has been discharged.

With severe withdrawal symptoms lasting up to several weeks, the chances of a patient returning to drug addiction are significantly increased.

Our specialized medical staff consists of very experienced and knowledgeable licensed doctors; addiction specialist M.D., Board Certified anesthesiologist M.D., psychologist PhD, psychiatrist M.D. and specially trained critical care paramedics and nurses. Our completely private out-patient center is fully equipped with state-of-the-art advanced medical equipment.

With our exclusively developed and proven RDD MethodSM our patients are safely and quickly detoxed in the comfort and privacy of our modern facility. Our patient's safety, comfort, well being and their confidentiality is our top priority.

OUR PATIENTS ARE 100% CLEAN AND FREE OF ANY OPIATE ADDICTION AFTER OUR TREATMENT WITH THE RDD METHODSM

A TRIBUTE TO OUR PATIENTS

"I HAVE TRULY BEEN BLESSED TO WORK WITH THE PEOPLE THAT COME TO OUR CENTER FOR HELP. I FEEL PRIVILEGED TO GIVE THEM HOPE AND UNDERSTANDING IN SUCH A TIME OF NEED. IT IS A PLEASURE TO FOLLOW THEM FROM THE VERY FIRST PHONE CALL, THROUGH THEIR RECOVERY. OUR PATIENTS ARE STRONG, BRAVE, KIND, SENSITIVE AND FOREVER THANKFUL. I CANNOT THANK THEM ENOUGH FOR PUTTING THEIR TRUST IN US AND HAVING THE COURAGE TO COME FROM ALL OVER THE COUNTRY TO LET US HELP THEM CHANGE THEIR LIVES. THEY HAVE MADE ME REALIZE IT IS A VERY IMPORTANT THING TO EXTEND YOURSELF, TO TRULY HELP PEOPLE SO DESPERATELY IN NEED. THE REWARDS I GET FROM MY PATIENTS ARE MANY. I WILL ALWAYS BE HERE FOR EACH AND EVERY ONE OF YOU. I THANK YOU FOR ALLOWING US TO SHARE YOUR STORIES. YOU WILL NEVER KNOW WHAT A POSITIVE EFFECT YOUR WORDS OF ENCOURAGEMENT WILL HAVE AND HOW MANY LIVES YOUR PERSONAL STORY MAY SAVE." JEANNE, HEAD NURSE COORDINATOR

Why Choose Rapid Drug Detox?

FREE YOURSELF FROM OPIATE ADDICTION WITH THE RDD METHODSM

Cost Effective Programs - We offer services starting at only \$800.00.

Medical Professionals - We staff only the most qualified medical professionals who treat our patients with respect and compassion.

Safe & Proven Method - We're the only facility to offer the RDD MethodSM, a safe and effective method to detox from opiates.

100% Confidential - We value your privacy.

OUR PATIENT'S SAFETY, COMFORT AND CONFIDENTIALITY WILL ALWAYS BE A TOP PRIORITY.

Confidential Our facility is a totally private and confidential out-patient treatment center offering the exclusive RDD MethodSM of anesthesia detox. There is never any fear that a person will be exposed through a hospitalization as a drug addicted patient receiving drug addiction treatment. Our patients never need to worry that their treatment will be a part of a hospital data base system that can be easily accessed by a national computer network. They will never have to fear that in the future, they will be denied acceptance into a medical insurance plan because of a past history of drug abuse. These concerns are very real and should be a strong consideration when seeking drug addiction treatment. The stigma attached with a history of drug addiction can cast a very negative light and cause years of prejudice.

SAFETY

Throughout the years we have maintained a stellar safety record. Our reputation for excellence, innovative treatment, and the success of our patients have enabled us to hold our top position as a national leader in the field of anesthesia assisted opiate detoxification.

Our patient's safety, comfort, and confidentiality are always a top priority.

SUCCESS STORY

"I BECAME A CONSISTENT, EVERYDAY OXYCODONE/HYDROCODONE USER. I WAS A DEAD MAN IF I DID NOT GET OFF THESE DRUGS AND HAVING TRIED ON MY OWN, I HAD REACHED THE POINT WHERE I KNEW I SIMPLY COULD NOT GO THROUGH IT ALONE. I AM A FREE MAN TODAY THROUGH A COMBINATION OF THIS RAPID DETOX PROCEDURE & THE ABSOLUTE CARE THEY GAVE ME FOR 48 HOURS AFTER THE PROCEDURE."
DAVID, MASSACHUSETTS

Real People Real Stories

SUCCESS STORY

"SOME PEOPLE SAY THAT YOU GET WHAT YOU PAY FOR, HOWEVER, WITH THIS FACILITY WHEN COMPARED TO THE REST YOU GET MUCH MORE THEN YOU PAY FOR. I AM 27 YEARS OLD AND MY LIFE WAS COMPLETELY CONSUMED WITH THE PILLS. I GUESS I WAS A FUNCTIONING ADDICT BUT NOW I AM JUST A FUNCTIONING PERSON WHO HAS BEEN FREED OF THE SHACKLES OF ADDICTION. IN MY OPINION I OWE MY LIFE TO THE RAPID DRUG DETOX CENTER." GENE, IOWA

What is Rapid Drug Detox?

FREE YOURSELF FROM OPIATE ADDICTION WITH THE RDD METHODSM

Rapid anesthesia detoxification involves infusion of intravenous medications that quickly remove the opiate drugs from the opiate receptors in the body. These receptors are where all opiate drugs attach, inducing the feeling of euphoria and pain relief.

The RDD MethodSM of opiate anesthesia detox was developed by Rapid Drug Detox Center, a private, confidential drug-addiction treatment facility. The benefits of The RDD MethodSM are many...

It's proven. Once the opiates have been removed from the opiate receptors, the patient is clean and the worst of withdrawal is over. Our patients report that The RDD MethodSM eliminates approximately 90% of the pain and suffering associated with typical opiate withdrawal.

It's quick. The procedure occurs during 45-60 minutes of light, general anesthesia.

It's safe. Thorough screening of your medical history and extensive medical and psychological evaluations are administered by the Rapid Drug Detox Center medical staff to ensure that you are a healthy candidate for rapid detox.

It's exclusive. Because we are the only providers of The RDD MethodSM, our patients come to us from all over the country, as well as from around the world.

It's affordable. Rapid Drug Detox Center offers several programs that are extremely cost effective. We accept all major credit cards and/or debit cards.

Rapid Anesthesia Detox

\$6700

Rapid anesthesia detoxification involves infusion of intravenous medication which quickly removes the opiate drugs from the opiate receptors in the body.

These receptors are where all opiate drugs attach, inducing the feeling of euphoria and pain relief.

100% CONFIDENTIALITY

Naltrexone Implant

starting at \$800

Naltrexone Implant is recommended as part of the aftercare program for rapid anesthesia detox, as it helps to reduce your cravings. Naltrexone attaches to the now empty receptor to help with cravings and block any ingested opiate from attaching to the receptor.

This implant will completely dissolve and disappear over 7 weeks or 2 months depending on the size desired. Patients may return for the placement of another implant.

RapidDrugDetoxCenter

FREE YOURSELF FROM OPIATE ADDICTION

Located in West Bloomfield, Michigan; a beautiful upscale community in S.E. Michigan.

There are only 5 centers in the country that offer this specialized opiate addiction treatment. We are the only center offering the exclusive RDD MethodSM of anesthesia detoxification.

Approximately 98% of our patients travel to our center from all over the country and the world. Many appreciate our affordable cost and the strict confidentiality that only our center can offer.

Typically, your stay will be four days. The first day is devoted to testing and appointments with the Rapid Drug Detox medical personnel. Day Two is the procedure itself.

Once the procedure is complete and the anesthesia has worn off, you will return to the comfort and privacy of a nearby hotel room where you will sleep most of the third day. Day Four is the post-procedure consultation with the on-staff physician who will have followed your entire convalescence.

Most patients are comfortable enough to travel after this period, so you should feel free to leave after the post-procedure consultation. We have a list of hotels from which to choose, all within a mile of the Rapid Drug Detox facility.
