

The RDD Method™

The RDD Method™

FREE YOURSELF FROM OPIATE ADDICTION WITH THE RDD METHOD™

Our innovative ROD Method™ of anesthesia assisted opiate detox can eliminate approximately 90% of the pain and suffering associated with opiate withdrawal!

As opposed to many physicians and rehabilitation centers, we do not use other addicting opiates such as Suboxone, Subtex, Buprenorphine, or any mixture of opiate "cocktails" such as liquid Hydrocodone or Dilaudid to accomplish detoxification.

These schedule II and III controlled opiate drugs only trade one addiction for another, masking withdrawal and causing severe, painful symptoms 2-3 days after the drugs are stopped after the patient has been discharged.

With severe withdrawal symptoms lasting up to several weeks, the chances of a patient returning to drug addiction are significantly increased.

Our board certified anesthesiologist consists of very experienced and knowledgeable Board Certified and Fellowship Trained Physicians; Dr. Gupta, our internal medicine doctor, Dr. Huraibi. We are the only anesthesia detox center that has 2 physicians present at all times for the detoxification procedure. All patients are admitted into a private, licensed surgical facility. Patients are detoxed at the hospital in the operating room to ensure the safest environment with state of the art advanced medical monitoring equipment to ensure safety and comfort.

With our exclusively developed and ROD Method™ our patients are safely and quickly detoxed in the comfort and privacy of an accredited surgical center. Our patient's safety, comfort, well being and their confidentiality is our top priority.

**ADDICTION AFTER OUR TREATMENT WITH THE RDD METHOD™
OUR PATIENTS ARE 100% CLEAN AND FREE OF ANY OPIATE**

A TRIBUTE TO OUR PATIENTS

"I HAVE TRULY BEEN BLESSED TO WORK WITH THE PEOPLE THAT COME TO OUR CENTER FOR HELP. I FEEL PRIVILEGED TO GIVE THEM HOPE AND UNDERSTANDING IN SUCH A TIME OF NEED. IT IS A PLEASURE TO FOLLOW THEM FROM THE VERY FIRST PHONE CALL, THROUGH THEIR RECOVERY. OUR PATIENTS ARE STRONG, BRAVE, KIND, SENSITIVE AND FOREVER THANKFUL. I CANNOT THANK THEM ENOUGH FOR PUTTING THEIR TRUST IN US AND HAVING THE COURAGE TO COME FROM ALL OVER THE COUNTRY TO LET US HELP THEM CHANGE THEIR LIVES. THEY HAVE MADE ME REALIZE IT IS A VERY IMPORTANT THING TO EXTEND YOURSELF, TO TRULY HELP PEOPLE SO DESPERATELY IN NEED. THE REWARDS I GET FROM MY PATIENTS ARE MANY. I WILL ALWAYS BE HERE FOR EACH AND EVERY ONE OF YOU. I THANK YOU FOR ALLOWING US TO SHARE YOUR STORIES. YOU WILL NEVER KNOW WHAT A POSITIVE EFFECT YOUR WORDS OF ENCOURAGEMENT WILL HAVE AND HOW MANY LIVES YOUR PERSONAL STORY MAY SAVE." JEANNE, HEAD NURSE COORDINATOR

Why Choose RDD ?

FREE YOURSELF FROM OPIATE ADDICTION WITH THE ROD METHOD™

Cost Effective Programs

This includes all transportation on arrival, all pre-exams, the detoxification procedure, of Naltrexone Therapy, lodging at hotel private suite for up to 3 nights for 2 or more.

OUR PATIENT'S SAFETY, COMFORT AND

CONFIDENTIALITY WILL ALWAYS BE A TOP PRIORITY.

Confidential Our facility is a totally private and confidential treatment center offering the exclusive ROD Method™ of anesthesia detox. There is never any fear that a person will be exposed through a hospitalization as a drug addicted patient receiving drug addiction treatment. Our patients never need to worry that their treatment will be a part of a hospital data base system that can be easily accessed by a national computer network. They will never have to fear that in the future, they will be denied acceptance into an insurance plan because of a past history of drug abuse. These concerns are very real and should be a strong consideration when seeking drug addiction treatment. The stigma attached with a history of drug addiction can cast a very negative light and cause years of prejudice.

SAFETY

We ensure your complete safety, Throughout the years we have maintained a stellar safety record. Our reputation for excellence, innovative treatment, and the success of our patients have enabled us to hold our top position as a national leader in the field of anesthesia assisted opiate detoxification. Our patient's safety, comfort, and confidentiality are always a top priority.

Our Method - We're the only facility to offer the ROD Method, an effective method to detox from opiates.

Medical Professionals - We staff only the most qualified medical professionals who treat our patients with respect and compassion.

100% Confidential - We value your privacy.

SUCCESS STORY

"I BECAME A CONSISTENT, EVERYDAY OXYCODONE/HYDROCODONE USER I WAS A DEAD MAN IF I DID NOT GET OFF THESE DRUGS AND HAVING TRIED ON MY OWN, I HAD REACHED THE POINT WHERE I KNEW I SIMPLY COULD NOT GO THROUGH IT ALONE. I AM A FREE MAN TODAY THROUGH A COMBINATION OF THIS RAPID DETOX PROCEDURE & THE ABSOLUTE CARE THEY GAVE ME FOR 48 HOURS AFTER THE PROCEDURE." DAVID, MASSACHUSETTS

Real People Real Stories

SUCCESS STORY

"SOME PEOPLE SAY THAT YOU GET WHAT YOU PAY FOR, HOWEVER, WITH THIS FACILITY WHEN COMPARED TO THE REST YOU GET MUCH MORE THAN YOU PAY FOR. I AM 27 YEARS OLD AND MY LIFE WAS COMPLETELY CONSUMED WITH THE PILLS. I GUESS I WAS A FUNCTIONING ADDICT BUT NOW I AM JUST A FUNCTIONING PERSON WHO HAS BEEN FREED OF THE SHACKLES OF ADDICTION. IN MY OPINION I OWE MY LIFE TO THE RAPID DRUG DETOX CENTER." GENE, IOWA

What is RDD?

FREE YOURSELF FROM OPIATE ADDICTION WITH THE RDD METHOD

Rapid anesthesia detoxification involves infusion of intravenous medications that quickly remove the opiate drugs from the opiate receptors in the body. These receptors are where all opiate drugs attach, inducing the feeling of euphoria and pain relief.

The ROD Method™ of opiate anesthesia detox was developed by ROD Center, a private, confidential drug-addiction treatment facility. The benefits of The ROD Method™ are many...

It's proven. Once the opiates have been removed from the opiate receptors, the patient is clean and the worst of withdrawal is over. Our patients report that The ROD Method™ eliminates approximately 90% of the pain and suffering associated with typical opiate withdrawal.

It's safe. Thorough screening of your medical history and extensive medical and psychological evaluations are administered by the ROD Center medical staff to ensure that you are a healthy candidate for rapid detox.

It's exclusive. Because we are the only providers of The ROD Method™, our patients come to us from all over the country, as well as from around the world.

It's affordable. ROD Center offers several programs that are extremely cost effective. We accept all major credit cards and/or debit cards..

ROD WELLNESS CENTER OFFERS THE OPPORTUNITY TO SPEAK WITH FORMER PATIENTS.

TRADITIONAL REHAB VS THE ROD METHOD:

We have received thousands of calls and treated hundreds of patients voicing concerns about common detox methods many have already experienced. The hundreds of stories we have heard from patients that have experienced the out-dated and dangerous methods being used routinely within most traditional detox facilities throughout the country have raised concern. Patients with opiate addictions are routinely being treated in psychiatric facilities with protocols using out-dated and addicting opiate replacement medications calling this a detox treatment.

SUCCESS STORY

"I HAVE BEEN RECENTLY STRUGGLING WITH AN ADDICTION. I WENT ONLINE ABOUT A MONTH AGO AND FOUND THIS WONDERFUL PLACE CALLED RAPID DRUG DETOX, WE IMMEDIATELY SET UP AN APPOINTMENT. TODAY IS MY 8TH DAY DRUG FREE AND LIFE FEELS SO DIFFERENT. I AM SO HAPPY TO BE ALIVE AND FREE. IF YOU KNOW ANYONE STRUGGLING WITH OPIATE ADDICTION, DON'T EVEN THINK TWICE THEN TO TELL THEM ABOUT MY MIRACLE AND RAPID DRUG DETOX."

Rapid Anesthesia Detox

Rapid anesthesia detoxification involves infusion of intravenous medication which quickly removes the opiate drugs from the opiate receptors in the body. These receptors are where all opiate drugs attach, inducing the feeling of euphoria and pain relief.

100% CONFIDENTIALITY

Anesthesia Detox

Naltrexone Injection is recommended as part of the aftercare program for rapid anesthesia detox, as it helps to reduce your cravings. Naltrexone attaches to the now empty receptor to help with cravings and block any ingested opiate from attaching to the receptor. This injection will completely dissolve and disappear over 4 weeks.

Rapid Drug Detox Center

FREE YOURSELF FROM OPIATE ADDICTION

Located in Royal Oak, Michigan; a beautiful upscale community in S.E. Michigan.

There are only 4 centers in the country that offer this specialized opiate addiction treatment. We are the only center offering the exclusive ROD Method of anesthesia detoxification.

Approximately 98% of our patients travel to our center from all over the country and the world. Many appreciate our affordable cost and the strict confidentiality that only our center can offer.

Typically, your stay will be four days. The first day is devoted to testing and appointments with the ROD Wellness Center medical personnel. Day Two is the procedure itself, where all patients are admitted to an accredited and licensed out patient surgical center.

When stable, patients will be discharged from the center to return to the privacy and comfort of their own private room. Patients will be monitored by a licensed and experienced medic that will remain on the premises of the hotel, day and night, for the entire time patients are resting before home. Our physician will visit the patients daily who will follow your entire convalescence.

Most patients are comfortable enough to travel after this period, so you should feel free to leave after the post-procedure consultation. Treatment requires a 3 night stay.
